

# Avery Testwood

## Backend Engineer

Tbilisi, Georgia · a.testwood@example.com · +995 500 00 00 13

Willing to relocate: yes · Work format: fully remote

Salary expectation: from 5 500 USD per month

### Summary

Backend engineer working on payment and marketplace systems. I like boring services: clear contracts, real tests, and dashboards that someone actually looks at.

### Experience

#### Fabrikam Labs — Tbilisi

Senior Backend Engineer

May 2022 — present

Payments API on FastAPI and PostgreSQL, event delivery over Kafka.

Stack: Python 3, FastAPI, PostgreSQL, Kafka, Docker, Kubernetes

#### Northwind Puzzle Works (freelance, part-time) — remote

Backend Developer

February 2021 — November 2023

Alongside the full-time role: small Django shops and data exports.

Stack: Django, Postgres, Celery

#### Contoso Analytics — Batumi

Backend Developer

July 2019 — April 2022

Reporting service, SQL tuning, migration off a legacy PHP monolith.

Stack: Python, PostgreSQL, Redis

#### Acme Robotics — Batumi

Junior Developer

March 2018 — June 2019

Internal tooling, scheduled jobs, on-call rotation.

### Skills

Python, Python 3, FastAPI, Django, Postgres, PostgreSQL, SQLAlchemy, Redis, Kafka, Celery, Docker, Kubernetes, Git, CI/CD

### Languages

English — C1, Russian — native, Georgian — A2

### Education

Riverside Institute of Technology, Computer Science, 2018
